BOARD OF DIRECTORS MINUTES JANUARY 9, 2020

Special Meeting of the Finance Committee held at 11329 McCourtney Road, Grass Valley, CA 95949

NCCFD DIRECTORS

Present: Dorland, Slade-Troutman

STAFF:

<u>Present:</u> Fire Chief Turner, Finance Manager Van Groningen, Operations Support Long

STANDING ORDERS:

Director Dorland called the meeting to order at 4:00 p.m. Chief Turner led in the Pledge of Allegiance.

*PUBLIC COMMENT FOR ITEMS NOT ON THE AGENDA

Per CA Government Code 54954.3 No public comment.

BUSINESS

Discussion and Possible Action, Audit Exit Interview for fiscal year end 18/19 with Pehling & Pehling.

Director Dorland reviewed the Audited Financial Statements and then sat down with Jeff with a few questions. He felt the report was positive and felt it could go to the Board of Directors.

Director Slade-Troutman asked regarding the increases on page 7 to the salaries and benefits page and the four bullet points noted on the page. Finance Manager Van Groningen reported that salaries and benefits is all associated costs to labor, this includes pension, workers comp, insurances, employer taxes, benefits and salaries. One major component and the second bullet point on the list is due to seasonal firefighters that are funded from the prior year net strike team revenue. There were increases to salaries due to the agreed upon increases with the bargaining unit and step increases. \$170,000.00 of this increase was in pension costs, this is without an increase to our unfunded liability. The PERS actuarial shows an increase in the next two years. The fourth bullet point is due to the increase in the workers compensation experience modification. A brief discussion took place on how these items effect future budgets.

Director Dorland reported that this company comes in from the outside to see how this district is ran and if funds are being expended appropriately. No negative finding was in the report.

Finance Manager Van Groningen did a brief review of the table of contents and where to locate items and reported that the net position at the end of the year increased \$192,000.00.

Director Slade-Troutman motioned to accept the audited financial statements as written and approves it going before the Board. Director Dorland seconded. **MOTION** passed unanimously.

FINANCIAL STATEMENTS

AUDIT REPORT

June 30, 2019

October 17, 2019

Nevada County Consolidated Fire District

Nevada City, CA 95959

INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of Nevada County Consolidated Fire District as of and for the year-ended June 30, 2019, as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America applicable to financial audits contained in Governmental Auditing Standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that our audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Zachary Pehling, CPA

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Nevada County Consolidated Fire District as of June 30, 2019, and the respective changes in financial position, and cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis information and Budget VS. Actual comparison be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted principally of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with managements responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurances on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide an assurance.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated **October 17, 2019**, on our consideration of the Nevada County Consolidated Fire District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

NEVADA COUNTY CONSOLIDATED FIRE DISTRICT

Nevada City, California

Management's Discussion and Analysis for Fiscal Year Ended June 30, 2019

As management of the Nevada County Consolidated Fire District ("the District"), our discussion and analysis of the financial performance of the District offers readers of these financial statements an overview of the District's financial activities for the year ended June 30, 2019, based on currently known facts, decisions, or conditions, as well as a comparative analysis of changes in the District's financial position between FY 2017-18 and FY 2018-19

We encourage readers to consider the information presented here in conjunction with the District's financial statements.

Financial Highlights

- The assets of the District exceeded its liabilities by \$3,902,758 (net position) at the close of fiscal year 2019. Unrestricted net position, which is normally used to meet the District's ongoing obligations to its creditors, was <\$708,365> at June 30, 2019.
- The District's total net position increased by \$192,912. General revenues of \$6,529,269 were higher than expenditures of \$6,336,357 by \$192,912.
- Short-term liabilities (accounts payable, interest and accrued expenses) increased \$5,523. The District's long-term liabilities decreased \$345,916 (lease payments and pension). Total liabilities for the District decreased \$340,393.
- At the close of the year ended June 30, 2019, the District's governmental funds reported a combined ending fund balance of \$3,495,334, an increase of \$124,973 from the June 30, 2018 ending fund balance.

Using This Annual Report - Overview of the Financial Statements

This report consists of several basic financial statements. The <u>Statement of Net Position</u> and the <u>Statement of Activities</u> (Pages 18 and 19, respectively, the last column) provide information about the financial activities of the District and present a longer-term view of the District's finances. These statements provide information about the financial activities of the District in a manner similar to private sector companies.

The Governmental Fund Balance Sheet and the Governmental Fund Revenues, Expenditures and Change in Fund Balance (Pages 13 and 15, respectively) illustrate how the governmental type activities were financed in the short-term, as well as what funds remain for future spending. These financial statements also report the District's operations in more detail than government-wide statements by providing information about the District's individual funds.

Financial statement notes are an important part of the basic financial statements. They provide the readers additional information required by Generally Accepted Accounting Principles.

Government-wide Financial Statements

The financial statements for the District are on Pages 18 and 19. The reports provide readers with a broad overview of the District as a whole and about its activities for the current period. They include all

assets and liabilities using the accrual basis of accounting. In this method, all the current year's revenues and expenses are considered regardless of when cash is paid or received.

The <u>Statement of Net Position</u> represents the difference between all the District's assets and liabilities and the <u>Statement of Activities</u> reports the changes in net position during the fiscal year. Examining net position is an effective way to measure the District's financial health or position. Increases and decreases in net position is a good indicator of whether the District's financial position is improving or deteriorating.

Total		7,394,628	6,596,222	798,406			

Salaries, Wages and Benefits expense for FY 2018-19 were 625,204 more than FY 2017-18. Major components of the increases were:

- Salaries & Wages increased due to agreed upon increases, including step increases.
- Seasonal firefighter hiring for six months.
- Increased pension cost.
- Increased workers comp cost.

Professional Services increased due to MOU negotiations, the salary survey, GovInvest pension actuarial services and the sale of two surplus apparatus.

Maintenance increased due to apparatus repair and computer software needs.

Uniform increases are due to the purchase of Personal Protective Equipment for auxiliary personnel.

Other expense categories increased or decreased as part of a normal ebb and flow between years.

Fund Financial Statements

The Fund Financial Statements are on pages 13 and 15 and provide information about the District's individual funds, not the District as a whole.

The District's services are reported in two governmental funds to help control and manage the financial activities for particular purposes: The Operating Fund and the Building and Equipment Fund (Reserves) are combined in the General Fund, and the Capital Improvement Fund (AB1600 – Mitigation or Development Fees). These governmental funds focus on how money flows into and out of the District and are used to help control and manage the financial activities of the District's specific purposes, as well as show that the District is meeting its legal responsibilities. The governmental fund statements provide a short-term view of the District's general government operations and the basic services it provides.

Governmental fund information helps the financial statement reader determine whether there are more or fewer financial resources that can be spent in the near future. The relationship between governmental activities and governmental funds is described on page 14 and 16, Reconciliation of Government-Wide and Fund Financial Statements.

Financial Analysis of the Governmental Funds

The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of the reporting on the District's governmental funds is to provide information on short-term inflow, outflow, and balances of spendable resources. Such information is useful in assessing the District's financing requirements, as it indicates a pattern of expenditures vs. funds available to spend. In particular, the unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

For the year-ended June 30, 2019, the District's governmental funds reported combined ending fund balances of \$3,495,334, an increase of \$124,973 over the prior year. The unassigned fund balance of the General Fund is normally available for spending at the District's discretion, while the remainder of the fund balance may not necessarily be available for new spending if it has already been committed. The unassigned fund balance of the General Fund is \$1,374,016 at June 30, 2019.

Budget vs Actual

The <u>Statement of Revenues</u>, <u>Expenditures and Changes in Fund Balances Budget and Actual</u> on pages 36 and 37 shows a comparison for the General Fund and the Capital Improvement Fund. The budget is based on anticipated cash flows, while actual amounts are accrual based. The results are potential variances, as later noted. Revenues, consisting primarily of property taxes and parcel taxes/assessments, are budgeted at the level expected to be collected during the year and expenditures at a level not exceeding expected revenues plus the unexpended balance remaining from the previous fiscal year (beginning cash balance). Revenues for the General Fund were \$886,527 over budget and expenditures were over budget by \$774,071. Revenues for the Capital Improvement Fund were \$32,984 over budget and expenditures were equal to budget. These figures do not include beginning cash balances.

General Fund: Actual revenues were over budget by \$886,527 primarily due to 1) increased property and state taxes, 2) increased strike team reimbursements, 3) the sale of two surplus apparatus and 4) apparatus rental income. Actual expenses were over budget by \$774,071, primarily due to strike team expenses and capital asset purchase of personal protective equipment.

<u>Capital Improvement Fund</u>: Actual revenues were over budget by \$32,984. Revenues come from AB1600 mitigation fees. Expenses were on target to budget.

Special Tax Funds Collected and Expended

The special tax was used solely for the purpose of providing fire protection, both prevention and suppression, and for emergency medical response services within the District and for responses outside of the District under automatic/mutual aid agreements with other fire suppression or emergency service agencies, and for incidental expenses related to the collection of the tax. This amount is included as part of the special assessments and taxes recorded in the general fund.

In the fiscal year ending June 30, 2019, the District received \$935,229 from the 2012 Special Tax and \$2,037 in interest. These funds were used as follows:

- 1. Nevada County administrative fees of \$8,502.
- 2. Operating expenses in the areas of personnel, facility and equipment of \$883,826.
- 3. Fund balance increased \$44,938.

Capital Asset and Debt Administration

Capital Assets

At the end of fiscal year 2018-19, the District had \$4,337,454 invested in a range of capital assets, including land, structures, vehicles and equipment. This is a \$135,074 increase from the prior fiscal year. Several assets were purchased, most notably SCBA's and a utility vehicle. These were offset by the sale of several vehicles and depreciation.

West America - In a prior year, as part of the consolidation with Forty-Niner Fire Protection District, the District assumed a capital lease for the construction of Station 84 on

Coyote Street, Nevada City. The decrease in the balance is due to scheduled debt payments, which are due through January of 2021.

PNC E89 – This debt obligation is for the purchase of a fire engine purchased during the prior fiscal year, requiring payments through February 2020.

PNC E86 – This debt obligation is for the purchase of a fire engine in the current fiscal year, to be delivered in the next fiscal year, requiring payments through September 2022.

Additional detail regarding the District's debt is in Note 5 of the "Notes to Financial Statements".

Economic Factors and Next Year's Budget

Current Fiscal Situation and New Special Tax Measure

In FY 2018-19, the District continued to improve its financial stability. Steps include increased cash balances in the general fund, fixed asset upgrades and debt reduction.

The goal for FY 2019-20 is to continue providing for the safety of the community, safety of District employees and being good stewards of District assets. The FY 2019-20 budgets reflect such by projected expenditures in personal protective equipment, training, and maintenance of facilities, equipment and vehicles, as well as the purchase of several vehicles. The District is incurring increased costs in salaries and benefits, most notably retirement.

Although the District experienced financial growth, the District needs to be aware of factors that affect the largest cost; wages and benefits. During fiscal year 2018-19, a new memorandum of understanding started negotiations with Local 3800. There also is the continuing need to replace vehicles, equipment, and major maintenance projects. The long-term effect of these concerns is routinely reviewed and analyzed when preparing extended projections. The board and staff members use the projections as a basis to gain efficiencies on a number of different levels.

CalPERS Retirement Program

The District currently provides CalPERS retirement plans for four basic employee groups: Safety Classic (3% at age 55), Safety non-Classic (2.7% at age 57), Miscellaneous Classic (3% at age 60) and Miscellaneous Non-Classic (2% at age 62). The distinction of Classic are CalPERS members prior to January 1, 2013 and Non-Classic are CalPERS members January 1, 2013 and thereafter. Since our plans each had fewer than 100 active members as of June 30, 2003, we were required to participate in a risk pool.

The unfunded asset liability (UAL) for the District plans, as of the following measurement dates, are:

	A	Accounting Valuation - GASB 68			Actuarial Valuation					
		6/30/18	6/30/17		6/30/18	6/30/17				
Safety	\$	4,440,586 \$	4,510,468	\$	5,303,238 \$	4,358,201				
Misc		302,737	323,739		349,593	295,475				
Total	\$	4,743,323 \$	4,834,207	\$	5,652,831 \$	4,653,676				

GASB 68 modified the reporting requirements for UAL. For accounting valuations, the fiduciary net position includes, if applicable, deficiency reserves, fiduciary self-insurance and OPEB expenses. These amounts are excluded for rate setting in the funding actuarial valuation. Differences may also result from early CAFR closing and final reconciled reserves.

The contribution methodology for 2015-16 and thereafter changed. The required contribution consists of two components; 1) a contribution rate based on payroll, and 2) a fixed dollar amount. The purpose of the change is to insure the unfunded pension liability is funded as classic members reach retirement age.

In 2017, CalPERS reduced the discount rate from 7.50% to 7.00%, implementing over a three-year period. This decrease in the discount rate has two effects: 1) increases the contribution rate on payroll, and 2) increases the unfunded pension liability which in turn increases the associated annual payment.

In 2018, CalPERS changed the amortization schedule for new gains and losses being added to the unfunded pension liability. Effective June 30, 2019, the amortization period was shortened from 30 years to 20 years, and the five-year ramp-up and ramp-down will be eliminated. This will result in higher unfunded pension liability payments in the future.

The District's management continues to carefully monitor the condition of our pension funds and the discount rate. It is not possible to accurately predict the market's future impact on CalPERS, but prior volatile investment returns and resulting discount rate reduction shows the cause and effect relationship.

Other Fiscal Matters

As always, the District actively pursues as many sources of funding as are available to us (including grants) to ensure that during these changing economic times our level of service to the public remains at the high level we have all come to expect.

NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2018

<u>Background</u>: The District is an independent special district within the County of Nevada and was established under Health and Safety Code Section 13801 in July 1991. It is governed by a seven-member Board of Directors who are elected to four-year terms by area residents. The District provides fire protection, rescue, and emergency medical services in Nevada County. The District currently operates four fire stations, one fire station jointly staffed with Grass Valley and four unstaffed stations.

Note 1 - Significant Accounting Policies Accounting Principles

The financial statements of the Nevada County Consolidated Fire District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The most significant accounting policies of the District are described below.

Basis of Accounting and Measurement Focus

The accounts of the District are organized on the basis of funds, or account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Financial Statement Presentation

Government-Wide Financial Statements

The District Government-Wide Financial Statements include a Statement of Net Position and a Statement of Activities and Changes in Net Position. These statements present summaries of Governmental and Business-Type Activities for the District accompanied by a total column.

These statements are presented on an "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all of the District's assets and liabilities, including capital assets as well as infrastructure assets and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred. The types of transactions reported as program revenues for the District are reported in three categories: 1) charges for services, 2) operating grants and contributions, and 3) capital grants and contributions.

Certain eliminations have been made as prescribed by GASB Statement No. 34 in regard to interfund activities, payables and receivables. All internal balances in the Statement of Net Position have been eliminated except those representing balances between the governmental activities and the business-

NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2018

type activities, which are presented as internal balances and eliminated in the total primary government column. In the Statement of Activities, internal service fund transactions have been eliminated; however, those transactions between governmental and business-type activities have not been eliminated.

The District's governmental-wide fund balance is classified in the following categories:

<u>Net Investment in Capital Assets</u> - Includes amount of the fund balance that is invested in capital assets net of any related debt.

<u>Restricted</u> - Includes amounts that can be spent only for the specific purposes stipulated by a formal action of the government's highest level of decision-making authority, external resource providers, constitutionally, or through enabling legislation.

<u>Unrestricted</u> - Includes amounts that are technically available for any purpose and includes all amounts not contained in other classifications.

Fund Financial Statements

Governmental Fund Financial Statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all major governmental funds and non-major funds aggregated. An accompanying schedule is presented to reconcile and explain the differences in fund balances and changes in fund balances as presented in these statements to the net position and changes in net position presented in the Government-Wide financial statements. The District has presented all major funds that met those qualifications.

All governmental funds are accounted for on a spending or "current financial resources" measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and current liabilities are included on the Balance Sheets. The Statement of Revenues, Expenditures and Changes in Fund Balances present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Accordingly, revenues are recorded when received in cash, except that revenues subject to accrual (generally 60 days after year-end) are recognized when due. The primary revenue sources, which have been treated as susceptible to accrual by the District, are property tax, intergovernmental revenues and other taxes. Expenditures are recorded in the accounting period in which the related fund liability is incurred.

<u>Nonspendable</u> - Includes amounts that are not in a spendable form or are required to be maintained intact.

<u>Restricted</u> - Includes amounts that can be spent only for the specific purposes stipulated by external resource providers, constitutionally, or through enabling legislation.

<u>Committed</u> - Includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. Commitments may be changed or lifted only by the government taking the same formal action that imposed the constraint originally.

NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2018

<u>Assigned</u> - Includes amounts intended to be used by the government for specific purposes. Intent can be expressed by the governing body or by an official or body to which the governing body delegates authority.

<u>Unassigned</u> - Includes amounts that are technically available for any purpose and includes all amounts not contained in other classifications.

Use of Restricted/Unrestricted Net Position

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the District's policy is to apply restricted net position first.

Budgets and Budgetary Accounting

An annual budget is adopted on a basis consistent with generally accepted accounting principles for all governmental funds. By state law, the District's Board of Directors must adopt a preliminary budget by June 30th and a final budget no later than September 30th. A public hearing must be conducted to receive comments prior to adoption. The District's Governing board satisfied these requirements.

This budget is reviewed by the District Board of Directors during the year to give consideration to unanticipated income and expenditures. The final revised budget is presented for the General Fund as required supplementary information in the financial statements.

Pooled Cash and Investments

The County sponsors an investment pool that is managed by the County Treasurer for the purpose of increasing interest earnings through investment activities. Cash and investments for most County activities are included in the investment pool. Interest earned on the investment pool is distributed to the participating funds monthly using a formula based on the average daily balance of each fund

The California Government Code requires California banks and savings and loan associations to secure the County's cash deposits by pledging securities as collateral. This Code states that collateral pledged in this manner shall have the effect of perfecting a security interest in such a collateral superior to those of a general creditor. Thus, collateral for cash deposits is considered to be held in the County's name.

In accordance with GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools, investments were stated at cost, as the fair market value adjustment at the yearend was immaterial.

Accounts Receivable

On an accrual basis, revenues are recognized in the fiscal year in which the services are rendered. The District has not established an allowance for uncollectable receivables for Governmental or Grant Funds since prior experience has shown that uncollectable receivables are not significant.

Prepaid Expenditures

Prepaid expenditures (expenses) represent amounts paid in advance of receiving goods or services. The District has the option of reporting an expenditure in governmental funds for prepaid items either when

NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2018

purchased or during the benefiting period. The District has chosen to report the expenditures in the period benefited.

Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over and estimated useful life.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred outflow/inflows of resources, represents an acquisition/disposition of net position that applies to future period(s) and will not be recognized as an outflow/inflow of resources until that time.

Liability for Compensated Absences

The District is required to recognize a liability for employees' rights to receive compensation for future absences. All vacation is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position

Property Taxes

Nevada County is responsible for the collection and allocation of property taxes. Under California law, property taxes are assessed and collected by Nevada County up to 1% of the full cash value of taxable property based on assessed values on March 1 of the preceding year, plus other increases approved by the voters and distributed in accordance with statutory formulas. They become a lien on the first day of the year they are levied. Secured property tax is levied on January 1 and due in two installments, on November 1 and February 1. Unsecured property tax is levied on July 1 and due on July 31.

The County uses the Alternative Method of Property Tax Apportionment. Under this method of property tax apportionment, the County purchases the delinquent secured taxes at June 30 of each fiscal year. These taxes are accrued as intergovernmental revenue only if they are received from the County within 60 days after year end in the governmental fund. They are accrued when earned regardless of the timing of the related cash flows in the government-wide statement.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of

NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2018

the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plans (Plans) and additions to deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Investment Policy: California statutes authorize districts to invest idle or surplus funds in a variety of credit instruments as provided for in the California Government Code, Section 53600, Chapter 4 – Financial Affairs. The District does not have an investment policy that addresses its interest rate risk, credit risk, and concentration of credit risk.

Investment in the County of Nevada's Investment Pool: The District maintains its cash in Nevada County's cash and investment pool which is managed by the Nevada County Treasurer. The District's cash balances invested in the Nevada County Treasurer's cash and investment pool are stated at amortized cost, which approximates fair value. Nevada County does not invest in any derivative financial products. The Nevada County Treasury Investment Oversight Committee (Committee) has oversight responsibility for Nevada County's cash and investment pool. The Committee consists of ten members as designated by State law. The value of pool shares in Nevada County that may be withdrawn is determined on an amortized cost basis, which is different than the fair value of the District's position in the pool. Investments held in the County's investment pool are available on demand to the District and are stated at cost, which approximates fair value. This investment is not subject to categorization under GASB No. 3.

Interest Rate Risk: Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. As of June 30, 2017, the weighted average maturity of the investments contained in the County's investment pool was approximately 614 days.

Credit Risk: Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating issued by a nationally

NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2018

recognized statistical rating organization. The County's investment pool does not have a rating provided by a nationally recognized statistical rating organization.

Custodial Risk: Custodial risk is the risk that the government will not be able to recover its deposits or the value of its investments that are in the possession of an outside party. Custodial credit risk does not apply to a local government's indirect deposits or investment in securities through the use of government investment pools (such as the County's investment pool).

Custodial Credit Risk: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision for deposits: The California Government Code requires that financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure public agency deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits. The District's deposits were covered by FDIC insurance at June 30, 2017.

Note 6 - Public Employees' retirement Plan:

<u>Plan Description</u> - The Nevada County Consolidated Fire District's defined benefit pension plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. The Nevada County Consolidated Fire District's defined benefit pension plan is part of the Public Agency portion of the California Public Employees Retirement System (CalPERS), an agent multiple-employer plan administered by CalPERS, which acts as a common investment and administrative agent for participating public employers within the State of California. A menu of benefit provisions as well as other requirements are established by the State statutes within the Public Employees' Retirement Law. The Nevada County Consolidated Fire District selects optional benefit provisions from the benefit menu by contract with CalPERS and adopts the benefits though local ordinance (other local methods). CalPERS issues a separate comprehensive annual financial report. Copies of the CalPERS' annual financial report may be obtained from the CalPERS Executive Office - 400 P Street - Sacramento, CA 95814.

General Information about the Pension Plan

Plan Description, Benefits Provided and Employees Covered

The Plan is a cost-sharing multiple employer defined benefit pension plan administered by the California Public Employees' Retirement System (CalPERS). A full description of the pension plan benefit provisions, assumptions for funding purposes but not accounting purposes, and membership information is listed in the June 30, 2017 actuarial valuation report. This report is a publicly available valuation report that can be obtained at CalPERS' website under Forms and Publications.

Contribution Description

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through the CalPERS' annual actuarial valuation process. For Public agency cost-sharing plans covered by either the Miscellaneous or Safety risk pools, the Plan's actuarially determined rate is based on the estimated amount necessary to pay the Plan's allocated share of the risk pool's costs of benefits earned by the employees during the year, and any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. It is the responsibility of the employer to make necessary accounting adjustments to reflect the impact due to any Employer Paid Member Contributions or situations where members are paying a portion of the employer contribution.

Actuarial Methods and Assumptions Used to determine Total Pension Liability

Actuarial Cost Method Entry Age Normal

Actuarial Assumptions:

Discount Rate 7.15% Inflation 2.50%

Salary Increases Varies by Entry Age and Service

Mortality Rate Table Derived using CalPERS' Membership Data for all Funds

All other actuarial assumptions used in the June 30, 2017, valuation use the results of CalPERS Experience Study and Review of Actuarial Assumptions — December 2017, including updates to salary increases, mortality, and retirement rates, as a basis. The experience study report is available on the CalPERS website under Forms and Publications.

Discount Rate

The discount rate used to measure the total pension liability was 7.15 percent. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.65 percent discount rate is adequate, and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 7.15 percent is applied to all plans in the Public Employees Retirement Fund. The stress test results are presented in a detailed report call the "GASB Crossover Testing Report" that can be obtained at CalPERS' website under the GASB 68 section.

The long-term expected rate of return on pension plan investments was determined using a building -block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, staff took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

Pension Plan Fiduciary Net Position

NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2018

The plan fiduciary net position disclosed in your GASB 68 accounting valuation report may differ from the plan assets reported in your funding actuarial valuation report due to several reasons. First, for the accounting valuations, CalPERS must keep items such as deficiency reserves, fiduciary self-insurance and OPEB expense included in fiduciary net position. These amounts are excluded for rate setting purposes in your funding actuarial valuation. In addition, differences may result from early CAFR closing and final reconciled reserves.

Allocation of Net Pension Liability and Pension Expense to Individual Plans

A key aspect of GASB 68 pertaining to cost-sharing employers is the establishment of an approach to allocate the net pension liability and pension expense to the individual employers within the risk pool. Paragraph 49 of GASB 68 indicates that for pools where contribution rates within the pool are based on separate relations ships, the proportional allocation should reflect those relationships. The allocation method utilized by CalPERS determines the employer's share by reflecting these relationships through the plans they sponsor within the risk pool. Plan liability and asset-related information are used where available, and proportional allocations if individual plan amounts as of the valuation date are used where not available.

Note 7 – Risk Management

The District is a member of the Special District Risk Management Authority (SDRMA). The SDRMA is a risk-pooling self-insurance authority, created under the provisions of the California Government Code Sections 6500 et. seq. The purpose of the SDRMA is to provide a full risk management program for California local governments. The District pays an annual premium to SDRMA for workers compensation insurance, which is covered up to statutory limits.

The District pays an annual premium to an insurance company for general and auto liability, property, management liability, employee dishonesty, and excess liability insurance coverage. There have been no significant reductions in insurance coverage from coverage in the prior fiscal year. Also, there have not been any settlements in excess of the insurance coverage for the past three fiscal years.

Note 8 – Lease Agreements

The District has a lease agreement with the County of Nevada for use of former Station 91 beginning February 1, 2019 and expiring June 30, 2021. The tenant shall have the option to extend the lease for 2 additional 1-year terms. Rent shall be \$250 per month.

The District has a lease with New Cingular Wireless PCS to lease 330 sq ft at Station 88. Rent shall be \$1,200 per month.

The District has a lease with Verizon Wireless to lease 750 sq ft at Station 88. Rent shall be \$1,000 paid annually in advance.

two lease agreements for usage of space at District's Stations.

Note 9 – Joint Powers Authority

NOTES TO FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2018

The District is a member of the Nevada County Fire and Emergency Joint Powers Agency for which the District participation does not involve an ongoing financial interest or responsibility. As a member of this organization, the District receives communication and dispatch services. The amount paid to this jointly governed organization in fiscal year 2019 was \$96,195.

Note 10 – Subsequent Events

The District's management has evaluated events and transactions subsequent to June 30, 2019 for potential recognition or disclosure in the financial statements. Subsequent events have been evaluated through **October 17, 2019**, the date the financial statements because available to be issued. The entity has not evaluated subsequent events after **October 17, 2019**.

INDEPENDENT REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited the financial statements of Nevada County Consolidated Fire District as of and for the year ended June 30, 2019, and have issued our report thereon dated **October 17, 2019**. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of Nevada County Consolidated Fire District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered Nevada County Consolidated Fire District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Nevada County Consolidated Fire District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal controls such there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal controls over financial reporting was for the limited purpose described in the first paragraph of this section and was designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses as defined above.

INDEPENDENT REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS (continued)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Nevada County Consolidated Fire District's general-purpose financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the audit committee, management, others within the organization, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Re: 2019 Accomplishments and 2020 District Goals

Background:

It is the goal of the District's administration to identify and implement programs and/or procedures, which would enhance and improve the services that we provide daily. Listed below are some of the accomplishments that we have achieved within the past year.

Administration:

- 1. Developed and established the exploration of a single Western Nevada County Fire District.
- 2. Established working group to review and expand delivery of services between Western Nevada County Fire Agencies. Meetings to start in February of 2020.
- 3. Established professional and advantageous relationship with County CEO.
- 4. Enter admin service agreement with Ophir Hill Fire Protection District to assist with personnel transition and audit support.
- 5. Enter ongoing service agreement with Higgins Fire District to provide admin and audit support.
- 6. Capital Contingency Account equal to two months of operational expenditures.
- 7. Updated the District's Fee and AB1600 Mitigation Fee schedules.
- 8. District 5-Year financial projections.
- 9. Participated on numerous wildland safety panels to address community concerns.
- 10. Guest speaker in an informational documentary on wildfire safety, produced by Mary Owens.
- 11. Revised job descriptions and responsibilities for Safety personnel

- 12. Selected as a representative of Northern California fire services to attend PG&E's executive committee addressing wildland fire safety concerns.
- 13. Staff were invited and participated as a member of the oral board to select the new County OES Director.

Grants:

1. Applied for and received USDA / Cal Fire VFA Grant just over \$17,000.00

Operations:

- 1. Placed into service (2) sauna decontamination units to aid in cancer prevention for safety personnel.
- 2. Implemented various departmental procedures and programs in cancer prevention for safety personnel.
- 3. In conjunction with our allied agencies, we have developed the guidelines and usage for a countywide type III incident support team. Several District personnel have attended the initial training module to actively participate.
- 4. Management and staff have met with California Highway Patrol Air Operations and are currently working on a memorandum of understanding between agencies to implement a joint contract for usage of personnel for helicopter rescues within Nevada County.
- 5. Identified funding and hired nine Seasonal Firefighters for the term June to November.
- 6. Safety personnel implemented several advanced / optional EMS skills
- 7. Conducted promotional examination for the position of Lieutenant.
- 8. Trained support personnel to participate in a regional Critical Incident Debrief Program.
- 9. In conjunction with allied agencies, developed several public safety announcements regarding river safety.
- 10. Staff have developed and/or modified 40 Lexipol policies that are going through or have completed the review and approval process.

Facilities / Fleet:

- 1. Established and filled "service technician" position to assist in the repair and up-keep of District equipment.
- 2. Painted Station 88 and Station 89.
- 3. Placed new District signs on all staffed stations.
- 4. Ordered a new duty vehicle for shift Battalion Chiefs.
- 5. Completed a lease agreement with the Nevada County Sheriff's Office for the former Station 91.

- 6. Enlisted the services of an architectural firm regarding the remodel of Station 86.
- 7. Received and placed into service a new Type II fire engine for Station 86.
- 8. Developed specifications and ordered a new squad for Station 84.

Fire Prevention:

- 1. Entered into formal contract with the County of Nevada for the management and supervision of Defensible Inspector Program.
- 2. Successfully conducted 5th year of the "Fireworks Enforcement Taskforce".
- 3. Purchased the software and monitor to be able to review construction plans electronically.
- 4. Drone Program up and running.
- 5. Continue to participate in various fire safety committees. Also meeting with neighborhood groups, associations, schools, as well as Firewise Communities within the District.
- 6. Participate in Community Agencies United for Safe Schools and Safe Streets (CAUSSSS) sponsored by the Superintendent of Schools Office.
- 7. Continue to participate in the County's Drug Endangered Children group.
- 8. Worked with the 6-B Ranch Estates Homeowners Association to place their water storage systems for fire protection back in service. This includes two hydrants fed by ponds and one water storage tank. This project took over a year to complete.
- 9. Completed active shooter training with our Law Enforcement partners.
- 10. Participated in a working group on developing the County's Cannabis Ordinance and plan review of new grow sites.
- 11. Staff participated in meetings with the County, North San Juan Fire, Cal Fire and Cal Trans on the replacement of the Edwards Crossing Bridge.

Goals for 2020:

- 1. Development and support of programs that will enhance community involvement. Research and begin development of a "multi-level system" enhancing the current reserve program.
- Management Staff has seen a direct correlation between having accurate and accessible data to achieve successful implementation of programs and the awarding of grant funding. We will be researching new computer-based programs to make the availability of in-depth data obtainable for our personnel.
- 3. District Staff will be working together to identify new ideas which are financially responsible and within budget to update and/or replace the existing Station 86. We will focus our attention to meet the needs of the assigned personnel, the constituents which we serve, and the future needs and growth of the District.
- 4. District Staff will be evaluating recorded data associated with using the rescue squad in comparison to the engine emergency responses out of Station 84. The evaluation will encompass several areas to include, but not limited to response, fuel consumption, maintenance, and overall delivery of services.
- 5. Management Staff will participate with allied agencies to discuss and develop programs and services that will mutually enhance and reduce cost throughout Western Nevada County Fire Services. Meetings are tentatively scheduled to start in February 2020 including representatives from the County of Nevada.
- 6. The Department of Fire Prevention will be working with staff from the County of Nevada to expand and enhance the defensible space inspector program. The County of Nevada is currently working on identifying additional funding to ensure goals will be met in 2020 and the future.
